

eHS Release Notes (1 November 2010)

Vaccination Record

Summary:

From 1 November 2010 onwards, the eHealth System will be enhanced to support the viewing of vaccinations records.

Affected functions

1. Vaccination Record Enquiry
2. Claim

1. Vaccination Record Enquiry

- Service provider and data entry account can enquire immunization records for service recipient via the 'Vaccination Record Enquiry' function in the menu. (Fig 1)
- In the menu, click the menu item 'Vaccination Record Enquiry'. (Fig 2)
- Select the document type, input document no. and date of birth. Then press 'Search' button. Or you can choose to read data from Smart IC. (Fig 3)
- Document type, document no., date of birth, English name and gender are the keys to match immunization records from different information providers.
 - For validated eHS account, the corresponding English name and gender are retrieved from system for matching.
 - If the service recipient is not a validated eHealth account, you have to input the English name and select the gender. Then press 'Next' button. (Fig. 4)
The entered details are shown and you can press 'Proceed to Enquiry' button. (Fig 5)
- The vaccination records are shown. You can continue the claim by pressing 'Proceed to Claim'. For the available document types of different information providers and the available types of immunization records, you can refer to the legend in the screen. (Fig 6)
